## 5 BEDROOMS, 5 BATHROOMS

High luxury combines with traditional island architecture in a five-star enclave.

In the extensive Son Bunyola estate, surrounded by a **breathtaking landscape** on the picturesque north-western coast of the island, sits this luxury villa, Sa Punta de S'Aguila, which, together with two other superb villas, overlooks the sea, offering **unforgattable picture-postcard views**.

Built in **traditional Majorcan style**, with beamed ceilings and terracotta floors, it has been sensitively integrated into the landscape and enjoys panoramic sea and mountain views. The villa can **comfortably accommodate 10 adults** in five bedrooms, spread over three levels. They all have private bathrooms, Bose speakers and a selection of toiletries. Each room has its own terraced seating area.

The **well-proportioned interior space** is cosy yet luxurious. The large terrace and open-air dining area will be the ideal place for enjoying dinner or evening cocktails. An **inviting heated private pool** (15 x 6 metres) completes the atmosphere of blissful relaxation in this luxury accommodation.
